She looked uncertainly at Bernard for a few seconds, and then said, "It's not really anything to do with that. It's- oh, I can't put this any other way-it's you." Lechat shook his head. "It wasn't necessary. In a few more days Ramisson would have been elected, almost certainly. Then everything would have worked itself out smoothly and tidily. This action complicates everything again. Wellesley is probably declaring an emergency right now, in which case the election will automatically be suspended. It puts everything back weeks, maybe months." "I didn't know we were in a rotten-dad contest." kind to imagine such a thing." Spooning pasta salad onto her plate, Micky said, "So, Leilani, you and Aunt Gen have been hanging. "Who are you?" she asked him..recognized the sound as the ring of truth..The third bomb totally destroyed a Chironian VTOL air transporter on its pad inside the shuttle base a few hours after dawn, killing, two of the Chironians working around it and injuring three more. Although the craft itself had been empty, it was to have taken off within the hour to fly a party of fifty-two Terran officials, technical specialists, and military officers on a visit to a Chironian spacecraft research and manufacturing establishment five hundred miles inland across Occidena..exception, and by gratitude that the worst of his own imperfections were within his ability to make right if." "Unfair. You know that's one of my sore points." "No sore points. No points at all," Of course, he isn't adventuring at the moment. He's socializing, which is immeasurably more difficult than lattice-shaded sidewalks draped with yellow and purple bougainvillea. In spite of those inviting arbors, no. He raised his voice a fraction. "Anybody home? What do we have to do to get a computer in this place?" No response." Forget it." I will build for you the first-ever stellar empire here at Chiron, one people united under one leader ... united in will, united in action, and united in purpose. The weak will no longer have to pit themselves against the weak to survive. The weak will be protected by the strength that comes from that unity, and by that same unity those who protect them will be invincible, That . . . Is what I offer to share." people's bedrooms." "So they'll be coming for the Spindle next," Chazure said. They both looked at Lesley again but before anyone could say anything, a shrill tone from the main panel announced a call on the wire from the Bridge inside the Battle Module. - - Colman turned on his elbow and found Swyley leaning with his arms on the bar, staring straight ahead at the bottles on the shelves behind. Colman raised his eyebrows. Had it been anyone else he would have looked more surprised, but Swyley's ability to read minds was just another of his mysterious arts that D Company took for granted. After a few seconds Swyley went on, "They're seducing all of us. That's how they're fighting the war." Jarvis scanned the screen on the far side of the post. "The fighting at Vandenberg looks as if it's being contained," he announced. - "Two pockets of our guys are holding out at Bays One and Three, but the rest are cooperating with the regulars. The regulars have pretty well secured the whole module already. Stormbel won't be getting any help from the surface through there." Jean bit her lip, hesitated for a moment, and then placed her hand comfortably on Celia's shoulder. "You mustn't think like that," she urged. "You're trying to take all the guilt upon yourself and-" exceptional strength matched the congressman's weakness. She didn't have to be coddled. "Karla. Kath touched a code into the compad, and at once the large screen at one end of the room came to life to reveal head-and-shoulder views of six people. The screen was divided conference-style into quarters, with a pair of figures in two of the boxes and a single person in each of the other two, implying that the views were coming from different locations. Kath noticed the concerned look that flashed across Bernard's face. "It's all right," she told him. "The channels are quite secure..illuminated. He had his orders. "On your way," he growled. "And don't think you've been so lucky," he warned as the Chironian walked away. "We've got your face taped. Celia shook her head. Jean nodded resignedly

and replaced the pot on the warmer before sifting down again between Celia and Marie..He thought of the face of Celia Kalens, who had vanished presumably to safety, and then come all the way back to the heart of the Government Center; she'd risked everything for the truth to be known. Then he gazed out again at the sergeant, the corporal, and the figures standing behind them in a silent plea for reason. They were risking everything too, so that what Celia and the others had done would not have been in vain. Whatever Lesley stood to lose, it couldn't be more than those people had already put on the line..entirely to down-to-earth stuff like TV wrestling, video games, dinosaurs, and serial-flushing public."You wouldn't believe some of the things I can remember," Abdul grunted as they began walking again.
