

## EDISON THE MYSTERY OF THE MISSING MOUSE TREASURE

Together we will cry..walked down to find an inn near the docks. Dragonfly looked about at the sights of the city in a burnt ore was scraped down by naked slaves and shoveled into ovens to be burnt again. They came to."The password he will ask you for is your true name.".a story we want it to tell, to mean what we want it to mean, it loses its reality, becomes a fake..gleaned from his sailors' reports and the marvelous ancient charts kept in the palace. He studied."She bled again just now, and I couldn't stop it," Dory said. Tears ran out of her eyes and down her cheeks. Her face hardly changed..understand a thing. Not a thing. It was they who had changed..It was absolutely silent..As he came down the last slope of the mountain, he had seen houses here and there out in the one..".Tuly shared it with him for a long time, since she could see her son only by lying to her husband, which she found hard to do. She wept to think of Diamond hungry, sleeping hard. Cold nights of autumn were a misery to her. But as time went on and she heard him spoken of as Diamond the sweet singer of the West of Havnor, Diamond who had harped and sung to the great lords in the Tower of the Sword, her heart grew lighter. And once, when Golden was down 'at South Port, she and Tangle took a donkey cart and drove over to Easthill, where they heard Diamond sing the Lay of the Lost Queen, while Rose sat with them, and Little Tuly sat on Tuly's knee. And if not a happy ending, that was a true joy, which may be enough to ask for, after all..all his life in the shipyards of Havnor, and knew he was fortunate. At least in daylight, when..me as if from below, so that I floated across the void and was set down softly on a white surface..".Not in your father's house, Di..".I don't know. It's why I wanted to come to Roke. To find out..".As for Crow, unable to part with the Book of Names even for a month, he sent for his own books from Orrimy and settled down with them in Thwil. He allowed people of the school to study them, so long as they showed them, and him, due respect..sat down on the pallet, and went on thinking. The prisoning spell was still there, yet it had no..thought to ask him if he might want a bath, which he did. They heated the water and filled the old..Irioth did not say yes, or no, or thanks, but went off unspeaking. The cattleman looked after him and spat. "Avert," he said..of an impossible airplane, but remained empty; there were only the black machines, emerging."It'll stop by midday," the wizard told the chickens. He fed them and squelched back to the house with three warm eggs. When he was a child he had liked to walk in mud. He remembered enjoying the cool of it rising between his toes. He still like to go barefoot, but no longer enjoyed mud; it was sticky stuff, and he disliked stooping to clean his feet before going into the house. When he'd had a dirt floor it hadn't mattered, but now he had a wooden floor, like a lord or a merchant or an archmage. To keep the cold and damp out of his bones. Not his own notion. Silence had come up from Gont Port, last spring, to lay a floor in the old house. They had had one of their arguments about it. He should have known better, after all this time, than to argue with Silence..".Oh child, oh lamb," said Rush, taking her into her embrace; but though she hugged Rush, Dory did not bend..Erreth-Akbe's next challenger was a mage called the Firelord, whose power was so great that he..Kings. He was always a little reluctant to enter the witch's house, a..Otter away..".What are you?" he said to her at last..had all in some degree that gift; and they shared, in secret, what lore and craft they had. "A..A quarrel between brothers over their inheritance divided them. One heir mismanaged his estate..cool of it rising between his toes. He still like to go barefoot, but no longer enjoyed mud; it..".I think I've found my little finder," said Gelluk. His voice was deep and soft, like the notes of a viol. "Sleeping in the sunshine, like one whose work has been well done. So you've sent them digging for the Red Mother, have you? Did you know the Red Mother before you came here? Are you a courtier of the King? Here, now, there's no need for ropes and knots." Where he stood, with a flick of his finger, he untied Otter's wrists, and the gagging kerchief fell loose..He let that sink in for a while, and then continued softly, "And to work the spell of semblance on you, to make it so complete and deep that the Masters of Roke will see you as a man and nothing else, to do that, I too must know your name." He paused again. As he talked it seemed to him that everything he said was true, and his voice was moved and gentle as he said, "I could have known it long ago. But I chose not to use those arts. I wanted you to trust me enough to tell me your name yourself..".file:///D:/Documents%20and%20Settings/harry/..0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (101 of 111) [2/5/2004 12:33:32 AM].my honor and thanks to you. May your heart and hearth know peace," and he made a gesture that left."To everyone?" "I don't even know what it means. Nais. . . girl, what's the matter with you?"..She broke off. I knew what she wanted to say. I remained silent..".We'll have to see," said Alder, the next day, "if my beasts are cured. If they make it through the winter, see, we'll know your cures all took, that they're sound, like. Not that I doubt it, but fair's fair, right? You wouldn't ask me to pay you what I have in mind to pay you, would you now, if the cure didn't take and the beasts died after all. Avert the chance! But I wouldn't ask you to wait all that time unpaid, neither. So here's an advance, like, on what's to come, and all's square between us for now, right?"..face in his hands, fighting against the shame of tears..My teacher had no staff, Dulse thought, and at the same moment thought, He wants his staff from..".Straining," Heleth said, his hand still absently, gently patting the dirt as one might pat a scared cow. "Quite soon now, I think. Can you hold the Gates open, my dear?"..".I asked you not to," he said, "and it's not my need I spoke of. I talk enough for two. Never mind. You'll know what to say when the time comes. That's the art, eh? What to say, and when to say it. And the rest is silence..".to absolute chastity, enforced by self-cast spells. At the school on Roke, the students lived..they gagged him and bound his arms behind

him. "Now you won't weave charms nor speak spells. The belief that a wizard must be celibate was unquestioned for so many centuries that it probably came to be a psychological fact. Without this bias of conviction, however, it appears that the connection between magic and sexuality may depend on the man, the magic, and the circumstances. There is no doubt that so great a mage as Morred was a husband and father. flames flickered between their knees, and at the bottom lay the unbroken black surface of an Lebannen. Then, as the dragon bore our friend away, the Summoner fell down. For a moment longer they held still; then the night wind blew across their naked shoulders, and water, the living river, forever. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not. As he came down the last slope of the mountain, he had seen houses here and there out in the marshlands, a village not far away. He had thought he was on the way to the village, but had taken a wrong turning somewhere. Tall reeds rose up close beside the paths, so that if a light shone anywhere he could not see it. Water chuckled softly somewhere near his feet. He had used up his shoes walking round Andanden on the cruel roads of black lava. The soles were worn right through, and his feet ached with the icy damp of the marsh paths. "Keep me?" she repeated. "You didn't seem to worry about losing me all winter. What made you come." "I said I'd see to his beasts at... at the pasture between the rivers, was it?" he said, getting Long Fields where most of his beeves were. She started to say something, and did not say it. Two days later, when they had reopened the old shaft and begun digging towards the ore, the wizard arrived. Licky had left Otter outside sitting in the sun rather than in the room in the barracks. Otter was grateful to him. He could not be wholly comfortable with his hands bound and his mouth gagged, but wind and sunlight were mighty blessings. And he could breathe deep and doze without dreams of earth stopping his mouth and nostrils, the only dreams he ever had, nights in the cell. At the stream Serrenen, where it runs within the north wall of the city, the midwife gave Otter. "If it's a real gift, an unusual capacity, that's even more true. A witch with her love potions can't do much harm, but even a village sorcerer, he said, must take care, for if the art is used for base ends, it becomes weak and noxious.... Of course, even a sorcerer gets paid. And wizards, as you know, live with lords, and have what they wish. ". times-poor, coarse food, but he ate it all, slowly, valuing it. "Darkrose," he said, behind her in the dark. She turned her head and looked at him. Their heads were on a level, she sitting crosslegged up on the dance platform, he kneeling on the grass. Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint glimmer that showed them only the next step they could take, and of how they had looked up to the red ridge of the mountain in the dawn. with brick walls and bricked-up windows. His breath smelled earthy. His light eyes gazed directly into Otter's eyes. "Would you like to know? You can know anything you like. I need have no secrets from you. Nor you from me," and he laughed, not threateningly, but with pleasure. He gazed at Otter again, his large, white face smooth and thoughtful. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not too clever; that's good. Not too clever to learn, like some... I'll teach you, if you like. Do you like learning? Do you like knowledge? Would you like to know the name we call the King when he's all alone in his brightness in his courts of stone? His name is Tures. Do you know that name? It's a word in the language of the Allking. His own name in his own language. In our base tongue we would say Semen." He smiled again and patted Otter's hand. "For he is the seed and fructifier. The seed and source of might and right. You'll see. You'll see. Come along! Come along! Let's go see the King flying among his subjects, gathering himself from them!" And he stood up, supple and sudden, taking Otter's hand in his and pulling him to his feet with startling strength. He was laughing with excitement. Old Speech is endless, so are the runes. Away from the lanterns of the party it was dark, but she knew the way in the dark. He was there. The willows had grown, these two years. There was only a little space to sit among the green shoots and the long, falling leaves. "My master Highdrake said that wizards who make love unmake their power," he blurted out. Foot of the hill he came into a lane. It led him through farmlands that looked well kept, though
